

Dental Tips for Children

- **Tooth decay is the most chronic childhood disease in the United States.**
- The good news is that it is completely preventable.
- **My name is Janet Olszewski and I am Director of the Michigan Department of Community Health.**
- One in four Michigan third graders have untreated cavities.
- **Hispanic and African-American school children have higher rates of untreated cavities.**
- Regular visits to the dentist are important for a healthy mouth.
- **Schedule a visit to the dentist for your child today.**
